Sub: Business Update

Dear Sir/Ma'am,

This is to Inform you that Veefin has successfully integrated CRIF's Strategy One Business Rule Engine (BRE) with our no-code Digital Lending Stack (LOS • LMS • CMS). This strategic integration combines CRIF's robust, enterprise-grade decisioning engine with Veefin's agile digital lending ecosystem, enabling lenders to move rapidly from pilot projects to full-scale production.

With this collaboration, banks, NBFCs, fintechs, and lending platforms gain the ability to:
- Streamline customer onboarding with automated workflows
- Implement policy-driven, configurable underwriting that aligns with institutional risk frameworks
- Scale digital lending operations across multiple products and customer segments
- Launch new lending products faster while reducing operational and credit risk

By bringing together Veefin's AI-infused no-code stack and CRIF's advanced decisioning engine, lenders can significantly reduce time-to-market, improve compliance, and deliver seamless customer experiences across the lending lifecycle.

This marks another step in Veefin's commitment to building a future-ready lending ecosystem that empowers financial institutions to scale with speed, precision, and confidence.

This is for your information and records.
Thanking you,
For VEEFIN SOLUTIONS LIMITED
